

MAX GUILLOT

**TWO YEARS OF PROFESSIONAL
EXPERIENCE AS AN ACOUSTICIAN -
NOW SEEKING A SOUND DESIGN ROLE
IN THE VIDEO GAME INDUSTRY**

PROFILE

Curious and driven, I developed a strong interest in music since childhood, then in acoustics through my studies in the field. Having built a solid foundation as an acoustician, I also worked on several video-game Sound Design projects in my free time. I am now looking to move into sound design professionally, a field that sits much closer to my true passion.

WORK EXPERIENCE

Freelance Sound Designer

Self-employed - Since Summer 2023

- Composed and produced the complete soundtrack for a game released on Steam, Handled engine integration for Unity and Godot, Created sound design for cinematics, Recorded and processed a wide range of sound effects

Acoustic Engineer - Full-time (CDI)

Venathec, Aix-en-Provence, France - September 2023 to octobre 2025

- Regulatory acoustic measurements in buildings, on construction sites and in the surrounding environment, analyzed results and authored technical summary reports, Produced acoustic modeling using dedicated software, Managed client relationships

Acoustic Measurement Assistant - Apprenticeship

Seltech, Créteil, France - 2021/2022 academic year
